TUESDAY, OCTOBER 11.

FOR DELEGATE TO THE 56TH CONGRESS  
**PEDRO PEREA.**  
OF BERNALILLO.

Personal abuse of Hon. Pedro Perea will make Mr. Ferguson's votes, as the latter in due course will find.

Hon. Pedro Perea will not make himself very boisterous during this campaign, but he will pursue an honorable, straightforward and manly course, and that will count with the voters on election day in his favor. The other fellow can do the ranting and the shouting, and the Democratic papers the lying and the slandering.

The announcement coming from Washington that the battleships Oregon and Iowa are not to be sent to Manila, and the statement made from official sources that Germany, in her actions concerning the Philippines was only "bluffing," indicates that the United States has been pretty well informed on the situation all the time. What a peculiar feeling would have passed over the Kaiser if he had "bluff" had been called before he had a chance to "show down."

General Wood has proved himself to be the right man in the right place at Santiago. He has cleaned the city, fed the starving, restored order, and now is keeping out undesirable immigrants from the neighboring islands in order that the natives may do the work required in bringing the country back to a state of prosperity. When the generals and governors for the other parts of the islands are selected, it is to be hoped that more such good timber will be chosen.

Our more or less esteemed contemporaries, who see fit to cast strictures upon this journal, must excuse the fact, but this paper is too busy to take up any newspaper fights. It is very busy, indeed, these days. There are Republican candidates for delegate, for the legislature and in counties to elect: crime, corruption and malfeasance in office at La Sique County and officials must be shown up and stopped, and other important matters for the territory must be attended to, and that promptly and energetically. That keeps the New Mexican quite hard at work. To see you some other time.

The Republicans of Oregon got together at last and elected State Senator Joseph Simon to the United States senate, he receiving 63 out of 66 Republican votes in the assembly. It is a good thing that Simon got there, both for the Republicans of Oregon and of the country at large. The new senator was born in Germany, but came to the United States with his parents when a year old, and in 1857 arrived in Portland. He was admitted to the bar in 1872. He has been a member of the senate of the Oregon legislature continuously since 1880, with the exception of two years. During this time he has three times been chosen president of the senate. Mr. Simon is a pronounced advocate of the gold standard.

Our friends, the enemy, are amusing themselves and trying to deceive the people of New Mexico by charging that Hon. Pedro Perea was a sympathizer with Spain during the recent war. Mr. Perea is a native born citizen of the United States, he was educated in American schools. He knows no other country but the one over which the stars and stripes have floated for a hundred years and more. The charge will fall flat, as every fair minded man in this territory knows it to be a canard and simply gotten up as a campaign lie. Slanders of this sort will not affect the result of the election. Our Democratic friends are welcome to all the good sort of business will do their candidate for congress and their legislative and county tickets.

The placer mines of Alaska having failed to attract enough people to that land to satisfy the greed of the Pacific transportation companies, an effort is being made to get up an excitement over lode mines. The report that gold bearing quartz carrying over \$1,000 to the ton has been discovered in a certain locality is the first boost to the boom, and more exciting details may be expected in the immediate future. The fact of the matter is that there is gold in Alaska the same as in other volcanic parts of the world, but the supposition that there are lode mines in an inhospitable region, because it is thousands of miles from any center of population and supplies, more rich than the mines nearer civilization, is simply preposterous and calculated to catch "suckers." Simply that and nothing more. The experiences of the thousands who have been to the Klondike region and returned home broken in spirit and purse to the tens who have made the trip and gained wealth, will bear out the statement and remove any suspicion of jealousy. The place to look for gold is in a country where the metal is known to exist in paying quantities and where the climate and source of supplies are such that there is neither danger of freezing nor starving to death. To the prospector and miner, New Mexico today offers more opportunities than the whole of the northwest country, and at the same time there is no danger from cold, starvation, outbreaks from fevers and contagious diseases.

**A Dangerous Game to Play.**  
It is pretty well understood that Mr. Ferguson's campaign managers will attempt to raise the race question during the campaign and will endeavor to incite race passions and vindictiveness, that they might slip their candidate in. This paper has no fight to make on Mr. Ferguson personally. But that such action on the part of his campaign managers will not help his cause, is right plain to those who care to see. The idea of the Democratic bosses is to divide what is called the Mexican vote, which means the vote of those American citizens born here of Spanish or Mexican parentage, and then advise and induce the so-called American voters to cast their ballots for the Democratic candidate. It will be a sorry day for the Democratic party and for the territory when such happens. The Republicans propose to make a fair and square fight on party principles; they have put up an honest and able man in every sense of the word and will leave mud slinging to the Democratic bosses and papers. But if the game herein described should be attempted to be played by the Democratic bosses, the Republicans will nevertheless go straight ahead and make a clean, energetic, vigorous and patriotic campaign; they will stand upon the platform adopted at their convention, upon the high character as a man, a citizen and as a public servant, of their candidate for delegate, upon the fact that their legislative and county nominating committees consist of good, honest and competent men and will simply show the difference between corrupt Democratic rule or ruin policy and the present Republican era of prosperity and plenty for the people of this territory.

**Will Poll the Biggest Vote.**  
One of the most progressive, energetic citizens in New Mexico is Pedro Perea. He was nominated to the office of delegate to congress by the territorial Republican convention, held in this city, and he will poll the biggest vote ever given to a congressional candidate in the territory and will be elected.

**Good Advice to Albuquerque Republicans.**  
It certainly is to the interest of Albuquerque Republicans to give the congressional nominee and the county ticket their united support. This city has the university and other institutions to maintain, and if we antagonize the rest of the territorial Republicans, it will be hard for our delegation in the next legislature to secure recognition.

**No Justice or Equity in the Proceedings.**  
According to the New Mexican, the board of county commissioners of San Miguel county have an original idea of equalizing the taxes in that county. The scheme is to rebate the favored ones from 25 to 50 per cent of their taxes and to add the 25 per cent penalty provided by law on all those delinquents who are not favorites. This averages up all right, but the man who has the penalty added—who is generally a poor man—fails to discern the justice or equity of the proceedings.

**The Republican Legislative Nominee for Grant County.**  
Richmond P. Barnes, the choice of the Republicans of Grant county to represent this county in the house, is a distinguished member of the legal fraternity of New Mexico. He has the confidence and respect of all who know him and by reason of his legal attainments is eminently well fitted for a position among the law makers of New Mexico. Possessed of far more than the ordinary intellectual attainments of the average polished manners of a Chesterfield, he will be a representative of whom Grant county alone, but the whole territory will well feel proud.

**Local Papers Are Read.**  
Some people try to make themselves and others believe that the items which appear in local papers are never heard of outside of the limits of their circulation. This error had a striking refutation lately. The Elizabethtown Miner mentioned that a custom mill for extracting gold would do well in that town. The item was copied in the Denver Mining Record, a paper that probably reaches the largest number of people interested in mining of any paper published. The item was in turn copied from the Record by a number of papers of high standing and large circulation. From its appearance in the local paper with a few hundred circulation it went rolling on until it was scanned by several hundred thousand readers. This proves that the ultimate influence of the local paper is much greater than that which appears on the surface.—Raton Gazette.

**Revival of American Ship Building.**  
The London Times is considerably worried over the prospect of a revival of ship building in the United States, and sees in the near future the return of the supremacy of this country as a commercial maritime power. Prior to the civil war the shipping of the United States covered the seas and carried fully three-quarters of all the cargoes in the world. The American clippers were noted for their speed, great carrying capacity and their number. During the great struggle which is now regarded as finished for all time and everybody is trying his best to forget, except as an historical incident, the ship building industry was neglected and allowed to pass into other hands. About the same time England began to use iron in the construction of ships, and that innovation sounded the death knell of what had been the principal source of wealth on the Atlantic seaboard for many years, the carrying of merchandise from one country to another in ships.

**Crowds of Territorial Regiment Enjoying Themselves—Band Concerts Very Popular—Camp Hamilton All That Could Be Desired.**  
Camp Hamilton, Oct. 7.—The territorial regiment is getting down to business in earnest and will soon be able to do active service at the front in case it is ever needed. Guns have been issued and three hours of each day are devoted to drill in the manual of arms. This is the only thing that the territorial boys do not excel in. The regiment can drill without arms better than any regiment in the camp.

**Crowds of people from Lexington and surrounding towns visit the regiment daily.** The bear and eagle mascots are continually surrounded by curious visitors. Many of the boys have Indian relics, buckskin shirts, leggings, moccasins, bead purses, paint bags and necklaces made from human scalps. Yesterday one of the Arizona boys attempted to show a crowd of ladies a horned toad, and they ran in all directions. They thought it was some poisonous reptile. The territorial band is conceded by bandmasters here to be the best band in the camp. Their concert on Sunday was listened to by fully 1,500 visitors. A number of musicians were taken from the Oklahoma battalion and now the band has twenty-six pieces. Colonel McCord has ordered new instruments and says that he intends to have the best military band and best rifle shots of any regiment in the country. The Indian and Mexican musicians add to the general surprise experienced by eastern people produce such a fine band. The band leader, Otto Eberhardt, was bandmaster of the German Imperial band, which, contended with Sousa for honors at the world's fair. Each member is an accomplished musician, and a majority of

**Pedro Perea's Character.**  
(Albuquerque Citizen.)  
No one can truthfully say a word against the character of Pedro Perea. His honesty has never been questioned, and his executive ability has made him the Republican leader of this country.

**The Man Needed in Congress.**  
(Albuquerque Citizen.)  
Pedro Perea will be the next delegate to congress. He is the best man needed at Washington, as the next congress will be overwhelmingly Republican, and he can then secure some good legislation for New Mexico.

**Probable Majority in Socorro County.**  
(Socorro Chieftain.)  
In 1894 in this county, T. B. Catron had a majority over Antonio Joseph of 975 votes. In 1896 H. B. Ferguson had a majority of 240 over T. B. Catron. In 1898, Pedro Perea will have a majority of 750 over H. B. Ferguson.

**Republican Prospects in Socorro County.**  
(Socorro Chieftain.)  
The Republican candidates for county offices in this county are making a clean, energetic, vigorous campaign, and are gaining ground every day. The prospects of electing every candidate on a Republican ticket at the coming election are very bright.

The 12th New York has a peace commission at work with the territorial regiment. Tonight, company G, of Santa Fe, is invited to a free lunch at the quarters of company G of the 12th.  
Tomorrow, the territorial boys will give an Indian dance, and a great many people from Lexington will view the spectacle.  
Camp Hamilton promises to be the most healthful camp in existence. In addition to a naturally healthy climate, every sanitary precaution possible is being taken. Large bath houses are being built for the territorial boys. They will be equipped with shower baths.  
The general health of the Santa Fe boys is good. Private Hudnal, who was suffering with typhoid fever when the regiment left Whipple, has been removed to the hospital.  
Corporal James Reed was taken to the hospital. It is impossible to ascertain his ailment as members of the company in health are not permitted to visit patients. Doubtless the climatic change has affected him. He will receive the best of care here and no serious apprehension need be felt because of his illness.

**Homeseeker's Excursions.**

**Republican Platform.**  
The Republican party of the territory of New Mexico, in convention assembled at Albuquerque, on the 1st day of October, A. D. 1898, reaffirms its faith in the declaration of principles set forth in the national Republican platform of 1896; and it is with pride that we can again point to the fact that the Republican party administration public credit has been restored, industry revived, factories and workshops reopened and progress made in every branch of industry under which the people are enjoying renewed confidence and prosperity.  
We most heartily indorse the Dingley tariff law, enacted by a Republican congress, despite the persistent opposition of the Democratic party. Under that law the sheep and wool and live stock interests have been greatly benefited, and the wealth of this territory increased by many millions of dollars.  
We believe in sound money, and in a vigorous money sufficient for all business demands. The policy of the present administration in giving employment to labor, and protection to our various industries is a solution of the financial problems which call for cheap money, believing as we do that all money issued by the government should be of equal and equal value.  
We congratulate the country upon the great success of the present national administration, in which our president has distinguished himself as a statesman and a patriot in dealing with domestic and foreign affairs; and in which he has shown so much wisdom in upholding the honor of this nation.

**Republican Platform.**  
We heartily approve the wisdom of the annexing of the Hawaiian islands, and we favor the retention by this government of all territory acquired by our army and navy, and we demand that the territory of the Philippines be retained by the United States. We favor the construction of the Nicaragua canal under the immediate supervision and exclusive control of the United States government, the necessity for the canal having been more strongly emphasized by recent events.  
We heartily indorse the present Republican administration in all of its branches, and we are opposed to any change in the present executive which the present executive has occupied the position he fills, New Mexico has attained a place in the hearts of the American people, and we are proud of the patriotism of our citizens in sending forth a large proportion of soldiers to the Spanish-American war, and the bravery of our soldiers played on the field of battle, are a guarantee of our right to full citizenship in the American Union. We are proud to be the immortal record of the New Mexico squadron of "Rough Riders" in the battles of La Guasima and San Juan, and we are proud of the intelligence, patriotism and inimitable courage of our people, and where they have won for themselves the admiration of the civilized world, and tender to the relatives and friends of those who fell in the struggle for humanity, justice and civilization, the heart-felt sympathy of a grateful people. We congratulate the nation on the return of peace, and heartily indorse President McKinley upon the careful, patriotic and successful manner in which the dignity of this nation has been preserved in the war with Spain.

**Republican Platform.**  
We congratulate the people of New Mexico upon the appointment by the president of a Republican to the position of territorial governor, and we commend the members thereof for their devotion to duty and their unswerving interest in the advancement of the territory. **Republican Platform.**  
We congratulate the people of New Mexico upon the appointment by the president of a Republican to the position of territorial governor, and we commend the members thereof for their devotion to duty and their unswerving interest in the advancement of the territory. We are proud to be the immortal record of the New Mexico squadron of "Rough Riders" in the battles of La Guasima and San Juan, and we are proud of the intelligence, patriotism and inimitable courage of our people, and where they have won for themselves the admiration of the civilized world, and tender to the relatives and friends of those who fell in the struggle for humanity, justice and civilization, the heart-felt sympathy of a grateful people. We congratulate the nation on the return of peace, and heartily indorse President McKinley upon the careful, patriotic and successful manner in which the dignity of this nation has been preserved in the war with Spain.

**Humanity and freedom, we believe it should stay until every vestige of despotism has been removed.**
